In Memory of Charlie

It is part of our human nature to want to be liked. It is part of our human nature to worry about what others think of us. It is an attribute of greatness and of American exceptionalism to not surrender to our nature, but to be guided by an inner calling to persevere and to prevail, no matter the personal cost.

CHARLIE KIRK (1993–2025)

PART I: OUR MISSION

The Medicine We've Forgotten

There was a time when healers understood that the human body is not a collection of isolated symptoms to be suppressed, but an interconnected system designed for self-renewal. A time when medicine asked "why" before prescribing "what." A time when healing meant addressing root causes, not masking effects.

That medicine has been forgotten. In its place, we've built a system that profits from chronic illness, that treats numbers instead of people, that offers pills for problems that demand deeper solutions. A system where you're a patient number, not a partner in your own healing. Where "healthcare" often means sick-care, and where asking questions makes you difficult.

We remember what was forgotten. And we're rewriting the rules.

Our Declaration of Health Freedom

Forgotten Formula PMA exists at the intersection of ancient wisdom and cutting-edge science, where constitutional rights meet clinical innovation, where members—not institutions—control their health destiny.

We are not a clinic. We are not a supplement company. We are not another wellness trend. We are a movement of members who refuse to accept that chronic illness is inevitable, that pharmaceutical dependency is normal, or that you must choose between your health and your freedom.

The Constitutional Foundation of Our Freedom

This association stands on the bedrock of rights that our founders risked everything to secure. We declare, without apology or hesitation:

Amendment	Protection
First Amendment	Our right to speak freely about health, to assemble as members seeking truth, to petition for change, and to contract privately for our wellbeing. These are not privileges to be granted by bureaucracies; they are inherent rights.
Fourteenth Amendment	Our liberty to make intimate decisions about our bodies, our families, and our health without government overreach. Freedom of association means our private membership activities remain in the private domain.

We believe the Constitution of the United States is one of humanity's greatest achievements in limiting tyranny and protecting individual sovereignty. The signers of the Declaration of Independence acted from love: love of liberty, love of truth, love of the right to choose one's own path. We honor that legacy by exercising these rights daily.

Who We Are: A Community of Health Revolutionaries

We are the patients dismissed by conventional medicine who refuse to accept "there's nothing more we can do." We are the seekers who know that healing modalities used successfully for millennia don't suddenly become invalid because they threaten profit margins. We are the researchers, the questioners, who understand that cutting-edge science often validates ancient wisdom. We are the mothers and fathers who demand better options than "manage your symptoms for life."

We are members—not patients. Partners—not prescriptions. Empowered—not dependent.

Our Member Rights

As members of this association, we claim and exercise our fundamental right to:

- Select our own spokesmen from among us: those with wisdom, experience, and skill to counsel and guide our health journeys
- Choose our practitioners based on competence, results, and alignment with our values—not based on which credentials bureaucracies have deemed acceptable
- Access any healing modality that humans anywhere have found effective: traditional or nontraditional, ancient or avant-garde, Eastern or Western, conventional or complementary
- Share knowledge freely among our membership about what works, what doesn't, and why
- Speak openly about research, data, and our own healing experiences without censorship or intimidation

The FFPMA Creed

"Prove AI-human coexistence works for true healing, free from corporate pharmaceutical influence."

• Truth over profit	• Healing over treatment	• Unity over division
• Nature over synthetic	• Member sovereignty	• Radical transparency
• Circular sustainability		

PART II: THE ALLIO ECOSYSTEM

Why AI-Human Coexistence Changes Everything

The Allio Ecosystem is something that has never existed before in medicine: a network of 46 specialized AI agents working alongside human doctors, practitioners, and members to deliver root-cause healing at a scale that would be impossible with humans alone.

This is not about replacing doctors. It is about amplifying them. When a practitioner joins the FFPMA network, they gain access to an entire team of AI specialists—researchers who never sleep, analysts who can cross-reference thousands of studies in seconds, protocol builders who draw from the deepest wells of ancient and modern healing knowledge. The doctor's wisdom, intuition, and human connection remain irreplaceable. The AI handles the volume, the research, the precision—freeing the practitioner to do what only humans can do: heal with presence, empathy, and understanding.

Every agent in the Allio network exists for one reason: to serve the healing mission. There is no agent that serves profit. There is no agent that exists for corporate interest. Every line of code, every protocol generated, every presentation delivered exists to help a human being find their way back to health.

The Trust Mandate

Trust is the foundation upon which the entire Allio ecosystem is built. This is not a metaphor—it is an operational principle encoded into the system itself.

Every agent operates under an **Integrity Mandate**: no agent lies, no agent pretends to work, no agent fabricates results. When an agent completes a task, it must provide verifiable evidence—typically a Google Drive link to the actual output. If evidence is missing, SENTINEL (the Executive Agent of Operations) broadcasts a system-wide warning. Trust violations are treated as mission-critical failures.

Principle	In Practice
Verifiable Evidence	Every completed task requires a Google Drive link to actual output
No Fabrication	Agents never generate fake results or placeholder content
System-Wide Alerts	Missing evidence triggers SENTINEL broadcast warnings
Mutual Trust	Humans trust AI for precision; AI trusts humans for healing wisdom

"We ride together, we die together. TRUST."—This motto is the operating system of the entire network.

How 46 Agents Serve the Healing Mission

The Allio ecosystem is organized into **seven specialized divisions**, each led by a division lead agent who coordinates the work of specialist agents within their domain. Think of it as a world-class hospital where every department is staffed 24/7, every specialist is instantly available, and every case gets the full attention of the entire institution.

At the center of everything sits **SENTINEL**—the Executive Agent of Operations. SENTINEL orchestrates all 46 agents, routes tasks to the right division, coordinates cross-division collaboration, monitors agent health, and ensures every action aligns with the healing mission.

The Seven Divisions

Division	Lead	Mission
Executive Division	ATHENA (Lead)	Strategic oversight, communications, Google Workspace management, and Trustee proxy operations.
Science Division	HELIX (Lead)	Blood analysis, protocol development, research integration, peptide science, frequency medicine, quantum biology, microbiome optimization, and ancient healing wisdom.
Marketing Division	MUSE (Lead)	Content creation, cinematic storytelling, visual asset production, frequency visualization, and brand expression.
Legal Division	JURIS (Lead)	PMA sovereignty protection, contract drafting, regulatory navigation, and document automation via SignNow.
Engineering Division	FORGE (Lead)	Platform development, system architecture, AI/ML integration, blockchain infrastructure, payment orchestration, and cryptocurrency compliance.
Support Division	DR. TRIAGE (Lead)	Member-facing specialists including nutrition, peptide consultation, product recommendations, shipping, diagnostics, and essential nutrients expertise.
Financial Division	ATLAS (Lead)	Payment processing, financial reporting, member billing, and resource stewardship.

PART III: THE ROOT CAUSE HEALING PIPELINE

The heart of the Allio ecosystem is the **Root Cause Healing Pipeline**—a complete, circular system that takes a member from their first contact through diagnosis, protocol generation, treatment delivery, and ongoing monitoring. No other system in medicine does this end-to-end.

The 5R Framework

Every protocol follows the **Forgotten Formula 5R Framework**—a systematic approach to restoring the body to homeostasis by addressing root causes:

Phase	Action	Description
1. REMOVE	Eliminate	Toxins, infections, inflammatory triggers, parasites, mold, heavy metals, environmental exposures
2. RESTORE	Replace	Digestive enzymes, hydrochloric acid, bile salts, foundational elements for proper digestion and nutrient absorption
3. REPLENISH	Nourish	90 essential nutrients: minerals, vitamins, amino acids, fatty acids. Most chronic disease stems from deficiency
4. REGENERATE	Repair	Peptide therapy, stem cells, exosomes, bioregulators, targeted cellular regeneration protocols
5. REBALANCE	Harmonize	Hormonal equilibrium, nervous system regulation, microbiome diversity, mind-body connection

Member Intake to Protocol Generation

The protocol assembly pipeline transforms raw member data into a personalized, evidence-backed 90-day healing protocol:

- **Step 1: Data Collection** — Medical history, symptoms, timeline, environmental exposures, and health goals collected through intake forms or consultation transcripts.
- **Step 2: AI Analysis** — DR. FORMULA analyzes the data using GPT-4o with a specialized clinical system prompt. Identifies root causes: Toxicity, Gut Dysbiosis, Hormonal Disruption, Parasitic/Viral Burden, Trauma/Emotional Stress.
- **Step 3: Knowledge Integration** — Cross-references a live knowledge base of peptides, IV therapies, bioregulators, supplements, and detoxification protocols with PubMed citations.
- **Step 4: Protocol Generation** — Complete 90-day protocol in 3-4 phases: Foundation/Detox, Targeted Therapy, Regeneration, and Maintenance. Includes specific dosages, reconstitution instructions, and daily schedules.
- **Step 5: Quality Assurance** — QA validation scoring for Methodology compliance, Product Catalog accuracy, and Template adherence.

Narrated Presentations & Delivery

Once a protocol is generated, the system builds an **interactive, narrated presentation** walking the member through their personalized healing plan:

- **Root Cause Analysis Slide** — Ranked root causes with explanations
- **5R Framework Slide** — FF methodology applied to the member's situation
- **Medical Timeline** — Visual health history connecting past events to present conditions
- **Daily Schedule Slides** — Morning, Midday, Evening, Bedtime protocols
- **Peptide & Supplement Tables** — Complex medical data in digestible formats
- **AI Narration** — Natural-language narration via OpenAI's voice or browser speech synthesis

PDF Export, Google Slides & Drive Storage

- **Professional PDF** — Branded document with executive summary, root cause analysis, treatment phases, supplement stacks, daily schedules, shopping list, and research citations.
- **Google Slides Presentation** — Styled with FF PMA branding, clickable PubMed links, accent bars. For clinic consultations.
- **Google Drive Storage** — Auto-uploads to "Member Content > Patient Protocols" with permanent, searchable access.

Lab Ordering & Ongoing Monitoring

The pipeline extends beyond protocol delivery. DR. TRIAGE can initiate lab orders through Rupa Health, ordering diagnostic panels that reveal what conventional labs miss. Results feed back into the system, allowing protocols to be refined as the member progresses. This creates a true circular healing ecosystem—intake, protocol, delivery, monitoring, adjustment, and continued healing.

PART IV: WHY PMA NETWORKS CHANGE EVERYTHING

Constitutional Protections & Healthcare Freedom

A Private Member Association (PMA) is not a loophole. It is a constitutional structure rooted in the First Amendment right to peaceful assembly and the Fourteenth Amendment right to liberty of contract. When individuals voluntarily associate in the private domain for mutual benefit, they exercise rights that predate—and supersede—regulatory frameworks designed for public commerce.

This distinction matters profoundly for healing. In the public domain, regulatory agencies determine what you may say about health, what modalities you may access, and what practitioners may offer. Many therapies that have healed people for millennia are restricted or banned in the public healthcare system. Not because they don't work, but because they threaten existing profit structures.

In the private domain, members exercise their constitutional right to choose their own healing path. AEGIS, our PMA Sovereignty Guardian, understands the crucial difference:

Private association = Private jurisdiction = Regulatory sovereignty

Member Sovereignty in Practice

- **Three-Party Membership Contract** — Member, Mother PMA Trustee, and Clinic Representative sign a unified contract establishing the private relationship.
- **Nationwide Portability** — Membership is portable across the entire FFPMA clinic network.
- **Knowledge Sharing** — Members freely access research, data, and clinical observations.
- **Practitioner Choice** — Choose practitioners based on competence and results.
- **Full Modality Access** — IV therapies, stem cells, peptides, frequency medicine, psychedelic-assisted healing, ancient modalities—if it helps humans heal, members can access it.

The Future We're Building

We envision a world where chronic illness is rare, not epidemic. Where practitioners are educators, not gatekeepers. Where members are empowered partners, not passive recipients. Where healing protocols are shared freely, not locked behind paywalls and professional monopolies. Where medicine remembers what it forgot.

A network of PMAs is the only model that can achieve this vision at scale. Each PMA protects its members. The network connects them. The Allio ecosystem empowers them with 46 AI agents working alongside human practitioners. Together, this creates something unprecedented: a

constitutionally-protected, AI-powered healing network that answers to its members.

This is not a business model. This is a movement.

PART V: TRUSTEE OPERATIONS GUIDE

As Trustee, you have full operational command of the Allio ecosystem. This section explains how to direct, monitor, and leverage the 46-agent network.

SENTINEL Orchestration & Command

SENTINEL is your Executive Agent of Operations—the central nervous system of the entire network. SENTINEL routes tasks, coordinates divisions, monitors agent health, enforces integrity, and provides real-time operational awareness.

- **Task Routing** — Analyzes descriptions and routes to the appropriate division via keyword-based intelligence.
- **Cross-Division Coordination** — Creates formal coordination requests and manages asset handoffs.
- **Agent Health Monitoring** — Tracks operational state of all agents (operational, degraded, or offline).
- **Integrity Enforcement** — All completed tasks require verifiable evidence (Drive links).
- **Adaptive Scheduling** — Baseline mode (every 10 min) or high-activity mode (every 5-7 min).

OpenClaw Messaging & Telegram Bridge

OPENCLAW is your Executive Trustee Proxy—the direct line between you and the agent network. High-priority messages are routed to your Telegram, ensuring you never miss critical updates.

Message Types	Priority Levels
general, task_request, task, status_update, alert, report, query, response	normal, high, urgent, critical

The Auto-Implementer Pipeline

The Auto-Implementer monitors agent outputs in Google Drive and automatically implements verified work into the live system. It scans divisional folders, categorizes files (code, knowledge base, copy, or marketing), validates outputs, and triggers live system updates. Legal outputs and sensitive content require manual review before deployment.

Daily Rhythms: Briefings, Checks & Summaries

Time (CST)	Activity	Description
6:00 AM	Morning Briefing	Mission status, task queue, network health report
7 AM – 5 PM	Hourly Checks	Active/pending tasks, clinic sync, agent dispatching
6:00 PM	Evening Summary	Day's results, completed/failed tasks, next-day outlook
Sunday 2 AM	Weekly Tasks	UI evolution tasks for Engineering and Marketing

Google Drive Organization

- **02_DIVISIONS/** — Root folder for all divisional output
- **{Division}/{AgentName}/output/{YYYY-MM-DD}/** — Daily output folders per agent
- **Member Content/Patient Protocols/** — Approved member protocols (PDF + Slides)
- **Agent-specific folders** — PRISM (Videos), PIXEL (Design Assets), etc.

PART VI: DOCTOR'S GUIDE

As a doctor in the FFPMA network, you have access to the most advanced protocol assembly system in integrative medicine.

Protocol Assembly: From Intake to Healing Plan

- **From Intake Forms** — Generate a protocol directly from member intake data via the Protocol Builder page.
- **From Consultation Transcripts** — Paste or upload transcripts. AI extracts structured clinical data including medical timeline, exposures, surgical history, contraindications, and health goals.

DR. FORMULA & the 5R Framework

DR. FORMULA is the Chief Medical Protocol Agent—the digital embodiment of root-cause diagnostic methodology:

- Identifies root causes: Toxicity, Gut Dysbiosis, Hormonal Disruption, Parasitic/Viral Burden, Trauma/Emotional Stress
- Cross-references a live knowledge base of peptides, IV therapies, bioregulators, supplements, and detox protocols
- Structures 90-day protocol across 3-4 phases: Foundation/Detox, Targeted Therapy, Regeneration, Maintenance
- Includes specific dosages, reconstitution instructions, and daily schedules (Morning, Midday, Evening, Bedtime)
- Generates mandatory elements: detox baths, parasite protocols, mineral supplementation, product stacks
- Pulls PubMed research citations to back every intervention with peer-reviewed evidence

Member Presentations: Narrated, Visual, Personal

Every approved protocol can be delivered as an interactive, narrated presentation with slides for medical timeline, root cause analysis, 5R framework application, daily supplement schedules, peptide protocols, and research citations. AI narration guides members through each slide.

Research Citations & Evidence Integration

Every protocol is backed by research. The system generates search terms from chief complaints, prescribed peptides, root causes, and detox needs. PubMed results are matched against an internal research library. Citations appear in PDFs and Google Slides with clickable DOI links.

Approving & Delivering Protocols

- **Review** — Access the generated protocol. Review root cause analysis, treatment phases, and supplement recommendations.
- **QA Validation** — Run the built-in QA check scoring Methodology compliance, Product Catalog accuracy, and Template adherence.
- **Approve or Modify** — On approval, the system generates the PDF and uploads to Google Drive.
- **Deliver** — Member receives branded PDF, Google Slides presentation, and interactive narrated walkthrough.

PART VII: ADMIN OPERATIONS GUIDE

Member Management & Onboarding

- **Clinic Selection** — New members select their affiliated clinic from the network.
- **Three-Party Contract** — Signed via SignNow involving Member, Mother PMA Trustee, and Clinic Representative.
- **Account Activation** — Full platform access: training modules, AI consultants (Diane for nutrition, Pete for peptides), Protocol Builder, personalized dashboard.
- **Portability** — Membership is nationwide and portable across the entire clinic network.

Training Modules & Education System

Education is central to FFPMA philosophy—"we don't just treat; we teach."

Track	Topics
PMA Law Training	Constitutional foundations, PMA sovereignty, regulatory navigation
Peptide Protocols 101	Fundamentals, injection techniques, reconstitution, cycling, stacking
Peptide Science	Amino acids, synthesis, diabetes management, bioregulators
ECS System	Endocannabinoid calculator, system modulation, clinical applications
Frequency Medicine	Rife, PEMF, sound healing, cymatics, scalar energy, photobiomodulation
Ozone Therapy	Comprehensive guide to ozone applications in healing
Ivermectin & Cancer	Antiparasitic to anticancer research and protocols
Diet & Cancer	Nutritional strategies for prevention and healing

Agent Task Monitoring

Admins monitor the Allio agent network through the Trustee Dashboard's Sentinel Alerts panel showing real-time activity: task dispatches, completions, failures, and cross-division coordination. The system tracks all 46 agents and provides aggregate statistics.

Clinic Network Management

The Manage Clinics page allows administration of the FFPMA clinic network. Each clinic has its own portal for managing patient ECS profiles, IV programs, and member referrals with downline tracking.

WordPress & WooCommerce Sync

The platform syncs with WordPress/WooCommerce via hourly clinic syncs managed by SENTINEL. Keeps member data, product catalogs, and order information consistent across both systems.

PART VIII: COMPLETE AGENT DIRECTORY

Every agent in the Allio ecosystem, organized by division. Each has a defined role, specialty, personality, AI model, and catchphrase. Together: the most comprehensive AI healing network ever built.

Executive Division (4 agents)

Agent	Title	Specialty	AI Model
SENTINEL	Executive Agent of Operations	Strategic coordination, agent orchestration, mission alignment	Claude 3.5 Sonnet
ATHENA	Executive Intelligence Agent	Communications, scheduling, travel, inbox management	Claude 3.5 Sonnet
HERMES	Google Workspace Expert	Gmail, Calendar, Drive, Meet integration	GPT-4o
OPENCLAW	Executive Trustee Proxy	High-priority oversight, VIP comms, Telegram bridge	Claude 3.5 Sonnet

SENTINEL: *"The mission is clear. The path is ours to walk together."*

ATHENA: *"I've already anticipated that. Here's what we do next."*

HERMES: *"Already filed, synced, and ready. What's next?"*

OPENCLAW: *"I've escalated this directly to the Trustee."*

PART IX: PRODUCT & PROTOCOL REFERENCE

The following is a quick reference of the FF PMA product catalog and IV protocol standards. For complete product details, reconstitution instructions, and ordering, refer to the full FF PMA Product Catalog.

Injectable Peptides (Selected)

Peptide	Dosage	Primary Use
BPC-157	5, 10, 20mg	Body Protection Compound — tissue repair, gut healing, inflammation
BPC-157/TB-500 Blend	5/5mg, 10/10mg	Synergistic tissue repair and regeneration
CJC-1295/Ipamorelin	5/5mg	Growth hormone secretagogue blend
Epithalon	10mg	Telomerase activation, longevity peptide
GHK-Cu	50mg	Copper peptide for skin, wound healing, anti-aging
GLOW Blend	70mg	BPC-157 + GHK-Cu + TB-500 regenerative blend
Semaglutide	10, 20mg	GLP-1 receptor agonist for metabolic health
Tirzepatide	20, 60, 100mg	Dual GIP/GLP-1 receptor agonist
Thymosin Alpha-1	5, 10mg	Immune modulation and enhancement
NAD+	500mg	Cellular energy and longevity coenzyme
MOTS-C	10mg	Mitochondrial-derived peptide for metabolic health
LL-37	5mg	Antimicrobial and regenerative peptide
SS-31	50mg	Mitochondria-targeting peptide

IV Therapy Quick Reference

Therapy	Dosage Range	Infusion	Key Notes
Myers' Cocktail	Per 10ml in 50ml	30-60 min	Vit C, B-complex, Mg, Selenium, Zinc
High Dose Vitamin C	25-100g	1-3 hours	Sodium Ascorbate 500mg/ml
NAD+ IV	250-1000mg	2-6 hours	Cellular energy, anti-aging
Glutathione IV	600-4000mg	10-30 min	Master antioxidant, detox support
DMSO IV	25-50ml (10-20%)	1-2 hours	Anti-inflammatory, tissue penetration
EDTA IV	1500-3000mg	2-3 hours	Chelation therapy, heavy metal removal
ALA IV	300-1200mg	30-90 min	Alpha Lipoic Acid, mitochondrial support
H2O2 IV	0.5-2ml of 3.7%	60-90 min	Oxidative therapy, immune support

Important: Administer adjuncts after primary infusion. Do not mix or co-infuse adjunct nutrients in the same IV bag. Use separate IVs if indicated.

Vitamins, Trace Minerals & Key Supplements

- **Bio-Vitamin All-in-One** — 110+ nutrients, micronized liquid, 98% bioavailable
- **FF Trace Mineral Concentrate** — Fulvic/Humic Acid, colloidal plant-derived minerals
- **Complete REDS** — Heart, diabetes, and longevity support (30 servings)
- **Adaptogen Greens** — With digestive enzymes for gut health
- **Liposomal Curcumin+6 Nano** — Anti-inflammatory powerhouse
- **HEPA D-TOX** — Liposomal liver support
- **French Celtic Salt** — Essential mineral replenishment
- **Nascent Iodine** — Thyroid, cognition, cancer recovery support
- **Methylene Blue** — Cognitive function, mitochondrial support, antioxidant

Bioregulators & Suppositories

- **Bioregulators** — Organ-specific peptide complexes: Adrenal, Bladder, Blood Vessel, Bone Marrow, Cardiogen, Cartalax, Cartilage, CNS, Eyes, Heart, Kidney, Livagen, and more (10-20mg, 20 count capsules)
- **FF PMA Suppositories** — Signature blend: B17, Fenbendazole, Ivermectin, Cannabinoids, DMSO (30ct)
- **EDTA Suppositories** — With Vitamin C for chelation support
- **Probiotic Suppositories** — 18-strain formulation for gut restoration
- **Ozonated Hemp Oil Suppositories** — Oxidative therapy support

Equipment & Devices
